eScan Tablet Security for Android
Home and Small Office Edition

eScan Tablet Security for Android is specifically designed to secure your Android-based Tablet against viruses, malware, Trojans, and other cyber threats. It also secures your confidential data stored in it.

Highlights
- Easily locates your lost / stolen device with the Locate Device and Scream feature
- Secures the data of your lost / stolen device with the Wipe Data feature
- Restricts unauthorized access to your device with the Device Block feature

Key Features and Benefits

Effective Real-Time Scanning
eScan Tablet Security for Android scans your device on real-time basis and provides protection against malware, Trojans and other cyber threats. It automatically scans all newly downloaded and installed applications on your tablet device, thus keeping your Android-based tablet device safe from malware infections.

Advanced Parental Control
eScan Tablet Security for Android facilitates you with an advanced parental control feature that provides an extra layer of security to your Android-based Tablet device. It categorizes and detects the websites that the user visits when using Android's default browser, thus safeguarding Android-based Tablet device against evolving cyber threats. In addition, it restricts access to all other browsers installed on the device. To avoid threats and infections, the user is not allowed to access any other browser installed on the device.

Application Control
eScan Tablet Security for Android comes with an Application Control feature that blocks access to applications, unless specified. By default, all downloaded applications are blocked and access to these applications is only allowed by entering the eScan Tablet Security password.

Scheduled Scanning
eScan Tablet Security for Android facilitates scheduled scanning of your Android-based tablet device, thus providing you the best protection against evolving cyber threats. It performs scheduled scans in the background, either for all the files / directories in the internal and external storage or the entire device at your desired time.

Privacy Advisor
eScan Tablet Security for Android comprises of Privacy Advisor that provides you the complete list of application using device permissions in a classified format. This helps you to keep a check on the security level of all applications installed.

Anti-Theft
Your Tablets stores lot of your personal information-contacts, texts, emails, pictures, and much more. In case you lose it or if it falls into the wrong hands, your personal information, which is irreplaceable, is at risk. With eScan Anti-Theft feature you are protected with the latest Anti-theft technologies.

eScan Tablet Security for Android ensures complete protection to your Tablet by preventing unauthorized access in the event your device is lost or stolen. In order to take benefit of this feature, you will need to either login to your existing eScan Anti-Theft account or create a new account.

eScan now comes with Wipe Data feature that helps users to remotely delete Call logs and SMSs from devices that are either lost or stolen. They can even remotely restrict access to their device by enabling Device Block feature. The Locate Device feature helps track the location of the lost Tablet through GPS finder. Users can also locate their device with the help of Scream feature in case the device has been misplaced.

Lock Watch (NEW)
In case your device is lost or stolen, Lock Watch feature of eScan captures a photo of the user using the front camera after more than two failed unlock attempts.

Share App(NEW)
This feature allows you to share eScan Tablet Security App with your family and friends using Bluetooth or email.

User-Friendly GUI
eScan Tablet Security for Android has a trendy Graphical User Interface that is designed to suit the needs of both novice and expert users. It has a sleek intuitive design that is simple and easy-to-use. eScan Tablet Security requires very less memory to operate and hence does not affect the performance of your tablet device.

24x7 Free Online Technical Support
In order to ensure smooth computing experience, eScan provides 24x7 FREE online technical support via e-mail, live chat, and forums to all customers by experts.
